

How to Use teach:able without iOS

Opening Teachable

1. Open your preferred web browser.
Type in **edisonprep.teachable.com**.
2. In the top right corner, click the  icon and then **Login**.
3. Enter the email address and password associated with your Teachable account.
4. Select the course you wish to view, which will bring you inside the course area, where you can start to work through lecture content.

Be sure to mark lessons as complete as you progress!

Troubleshooting & FAQ

Why don't I see a course?

If the school is usually visible on your Teachable Accounts dashboard, it should be visible on any device. However, you cannot access courses from schools that do not have Teachable Accounts enabled.

Why can't I register?

You cannot register for our course from the web browser—contact us to receive an invite link.

Can I adjust the video playback speed?

Go to Settings, under Playback Speed.

How can I log in to another account?

To log in to another account, click the icon in the top right corner. Click on your name, then **Log Out**.

Why is my login failing?

Make sure you have entered in your email and password correctly—they are case-sensitive. Reset your password, then if the issue continues, let us know.
