## ON-SITE BOOTCAMP CASE STUDY March 2023

### OVERVIEW

Over the last decade, Edison Prep has held on-site ACT & SAT bootcamps at over 20 schools, and we continue to grow via word-of-mouth, positive results, and feedback from families.

On March 7, 2023, we hosted our popular two-day ACT Bootcamp at an Alabama public high school, just 4 days before the state-administered ACT. The bootcamp included about 150 students, the entire junior class (Class of 2024). The city has a population of 15,000. One junior achieved the highest ever average ACT score for their district—a composite score of 33 (a 98th national percentile)—and the cohort as a whole improved +1.8 points compared to the full-length mock pre-test (an authentic, recently administered national ACT exam).

### OUR INSTRUCTORS

Each Edison Prep on-site bootcamp is personally taught by our co-founders, who strongly believe that rural students deserve the same high-quality tutoring more commonly found in larger metropolitan areas. To learn more about our co-founders, Brian and Dr. Silvia Eufinger, visit [www.edisonprep.com/bio](http://www.edisonprep.com/bio)!

### LET'S COLLABORATE!

If your district is interested in hosting a school-sponsored ACT or SAT bootcamp, contact us at [edison@edisonprep.com](mailto:edison@edisonprep.com) or 404-333-8573 for more information on receiving substantial discounts for schools. Bootcamps include all materials needed, including a diagnostic mock pre-test with a detailed score analysis report for each student.

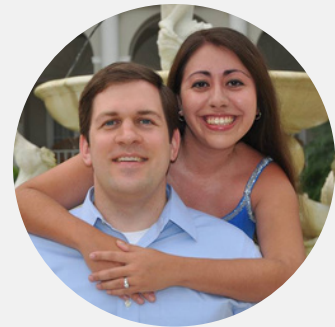

References are available upon request!

### STUDENT IMPROVEMENT

#### PRE-TEST TO REAL ACT:

English:	+4.56
Math:	+1.38
Reading:	-0.29
Science:	+1.32

**COMPOSITE: +1.79**

#### BRIAN & SILVIA EUFINGER

"No single four-hour period can have more impact on your student's eventual success than the SAT/ACT. Just like with a master athlete, it's not about the 10 meter sprint, it's about the hard work and preparation that goes into it beforehand that ultimately determines success when it matters most."
