

HOW TO TAKE A MOCK DIGITAL SAT AT HOME

brought to you by  Edison Prep

STEP 1: SETTING UP FOR SUCCESS

- **Pick a time when you can take the entire test in one sitting**, like a weekend morning.
- **Set up a quiet, no-distraction location.** Wear ear plugs or headphones (no music, though!) if you can't avoid a noisy environment.
- **Have pencils and scrap paper ready.** A watch and calculator are optional.

STEP 2: CREATE A COLLEGEBOARD ACCOUNT

You will use your CollegeBoard account to sign in to Bluebook, the testing application.

At collegeboard.org, click **Create Account → Student**.

- Fill out your personal information on each page. Prompts with an asterisk* are required.
- You may need to verify details like your name, email address, and password.

Success! Your CollegeBoard account has been created.

If you **already have a CollegeBoard account** for SAT or AP registration, **SKIP THIS STEP.**
